INTRODUCTION

It is important to establish classroom procedures which are consistent from day to day and which give students a feeling of “knowing” what to expect in the study setting. The rules and regulations should allow for a learning climate to be present on a daily basis.

In order to aid our effort toward consistency, some basic classroom procedures and expectations need to be initiated. Each instructor will be expected to model good learning techniques in the classroom. The basic classroom expectations are:

1. Intensive learning activities are to occur in each class.
2. The classroom time must be quality time.
3. Our greatest duty is to teach the subject matter, followed closely by performing the great storehouse of other responsibilities.
4. What we expect of our students, we should be willing to do ourselves. We truly must model that which we perceive to be important.
5. Specific conditions in the room should include:
 - a. Class should begin on time.
 - b. Chairs should be used to sit on.
 - c. Class time should be used in study of the subject matter.
 - d. Make yourself available to students.
 - e. It is the responsibility of the teacher to supervise their students.
 - f. The room, as well as the entire school, should project a positive atmosphere.

SOCIAL NETWORKING GUIDELINES

The School Board discourages school district staff from socializing with students outside of school in person or on social networking websites, including but not limited to MySpace and Facebook.

All school district employees, faculty and staff who participate in social networking websites, shall not post any school district data, documents, photographs or other district owned or created information on any website. Further, the posting of any private or confidential school district material on such websites is strictly prohibited. School district employees are prohibited from engaging in any conduct on social networking websites that violates the law, school board policies, or other standards of conduct. Employees who violate this policy may face discipline and/or termination, in line with other school board policies and/or collective bargaining agreements, if applicable.

Nothing in this policy prohibits employees, faculty, staff or students from the use of educational websites if such sites are used solely for educational purposes.

Access of social networking websites for individual use during school hours is prohibited.

STUDENT ACTIVITY FUND MANAGEMENT

All student activity funds will be audited annually at the same time as the general fund budget. All requisition/purchase orders must be approved by the club or event sponsor and approved by the building principal. Once a month, the principal will submit a report to the Board of Education indicating the cash balance at the beginning of the month, receipts, expenditures and ending balance of each account within the activity fund.

STUDENT CELL PHONES

When a cell phone is confiscated from a student, a staff member or adult does not have the authority to search call logs, text message files, etc., unless there is an imminent threat to the safety and/or well-being of students.

Approved: January 2009

STUDENT PRIVACY RIGHTS

District employees may have ongoing opportunities to access confidential information or records that are only available to the public on a limited review basis. Much of the information processed by district employees in confidential, and law governs its release; for example, driver record and vehicle registration information, confidential student records, criminal history background check information, information obtained pursuant to Department for Children and Families (DCF) intervention, social security number information, and professional misconduct background checks.

Employees are prohibited from divulging information contained in the records and files of the district, except to other authorized employees who may need such information in connection with their duties and to authorized persons or agencies only in accordance with laws, district policies, and administrative rules.

In all cases, the employee's immediate supervisor shall be informed, immediately, of any requests.

Any employee who inappropriately releases information, or uses confidential information obtained in the course of his/her employment with the district for personal reason or private gain, will be disciplined in accordance with board policies, collective bargaining agreements, and district procedures. STUDENT-STAFF RELATIONS

All staff members are expected to maintain relationships with members of the student body that are conducive to an educational environment.

SUMMER SESSIONS

The superintendent shall be responsible for the preparation of a plan to operate "summer sessions". This session shall not interfere with the regular instructional program of the district.

TEACHER ABSENCES

Leave policy encourages staff to contact their building principal or their designee as soon as they know they will need to use leave. Coverage for leave is granted on a first come, first serve basis.

Full time teachers are supplied with 12 temporary leave days per school year and can accumulate up to 60 days. Refer to the Rural Vista USD 481 Negotiated Agreement, Article II, regarding specifics about teacher leave.

TEACHER AIDES

When in the best interest of students, and as resources allow, teacher aides will be hired to work with students in classrooms. The main purpose of the teacher aides will be to work with students either in one-on-one or in small group situations. The teacher aides are not meant to be used to run off copies of worksheets, grade papers, or record grades.

Students who serve as teacher aides should also be utilized as much as possible in working with the students. However, at times they can be used to run off copies and put up bulletin boards. **AT NO TIME ARE STUDENT AIDES TO BE USED FOR GRADING PAPERS OR RECORDING GRADES.**

TEACHER AUTHORITY

Students are under the authority of any teacher at any time they are on school grounds or at a school sponsored activity. Any student who is insubordinate to a teacher or creates any disturbance which restricts or alters the learning process of themselves or other members of the class or activity is subject to disciplinary action by the teacher in charge. Teachers have the right to detain students as a disciplinary measure.

The importance of proper supervision of students cannot be stressed enough. Teachers are reminded that students assigned to them for a class or activity, are to be **supervised at all times**. If a student needs to leave your classroom at any time, for any reason, remember to send a pass that includes your signature or initials, the date and the time of leaving your room. The teacher in charge of the room where the student is going needs to put the time that the student arrives on the pass, then sign or initial and put the leaving time on the pass when the student leaves to return to his/her original classroom.

Each teacher is expected to supervise the halls adjoining his or her room, especially during lunch, before school hours and after school hours. Your presence in the hall prevents disorder. We want to discourage all unnecessary loitering in the halls and the teachers and principal in charge are instructed to move pupils to and from class with as much speed as possible, and to maintain supervision of the halls at all times while school is in session. Running, scuffling, hitting, and boisterous behavior of boys and girls is to be prevented. For this reason instructors should be present at their classroom doors between periods.

TEACHER - COMMUNITY RELATIONSHIPS

1. Be business-like. We should be courteous and yet be convincing that we do have some knowledge.
2. It is a good idea to go more than halfway to get along with folks.
3. Be humble and be able to communicate with all citizens.
4. Do not be afraid to do more than what is expected of you in the community in which you work.
5. The attitude of your community toward you depends largely upon your attitude toward the community.
6. Gossip is the public school's worst enemy; watch your step. Work to improve the organization.
7. The sensible teacher never, under any circumstances, criticizes another teacher in public.
8. Our goal is to improve the community of Rural Vista through our efforts with the youth.
9. Every move you make either adds to, or subtracts from, public confidence in the school system.
10. The parents see you through the eyes of their children.
11. Become active in building Rural Vista.

TELEPHONE USE (INCLUDING CELL PHONES)

Teachers are expected to adhere to the following district policy concerning the use of personal cell phones. Cell phones may be used before school, at lunch and after school. Phones should be turned off at all other times to reduce the disruption of learning.

The use of school phones for personal use is discouraged. However, we know that there are times when it is necessary. When you have to make a personal long distance telephone call on a school phone, please write down on the **PERSONAL LONG DISTANCE PHONE CALL** form the requested information (date, location called, number called, and your name/initials). These forms are located with the phones. We will use those forms to check the calls against the phone bill in order to assess appropriate charges.

TRUANCY

The building principal shall report students who are inexcusably absent from school to the appropriate authority. Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. Prior to reporting the truant to DCF or the county attorney, a letter shall be sent to the student's parents notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported as truant. Students who are absent for a significant part of any school day will be considered truant. Law enforcement officers may return truant children to the school.

VANDALISM

All school employees shall report any vandalism to the building principal. School personnel are expected to lock or secure any files, records, safes, or their classrooms at the close of each school day. The principal shall report any vandalism to the proper law enforcement officer. The Board of Education may offer a reward for information leading to the discovery, arrest, and conviction of persons committing any act of vandalism according to law.

VISITORS TO THE SCHOOL

Any person is welcome to visit the school, but will be under the jurisdiction of the building principal. The principal has the authority to request the visitor to leave the school property. All visitors must report to the principal's office upon entering the school property.

WEAPONS

A student shall not knowingly possess, handle, or transmit any object that can reasonably be considered a weapon at school, on school property, or at a school-sponsored event. This shall include any weapon, any item being used as a weapon or destructive device, or any facsimile of a weapon. Possession of a firearm or other weapon shall result in expulsion from school for a period of one calendar year, except the superintendent may recommend that this expulsion requirement be modified on a case-by-case basis. The term "weapon" and/or destructive device shall include, but shall not be limited to: any item being used as a weapon or destructive device; any facsimile of a weapon; any weapon which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of any weapon described in the preceding example; any firearm muffler or firearm silencer; any explosive, incendiary or poison gas, bomb, grenade, rocket having a propellant charge of more than four (4) ounces, missile having an explosive or incendiary charge of more than one-quarter (1/4) ounce, mine, or similar device; any weapon which will, or which may be readily converted to expel a projectile by the action of an explosive or other propellant, and which has any barrel with a bore of more than one-half (1/2) inch in diameter; any combination of parts either designed or intended for use in converting any device into a destructive device described in the two (2) immediately preceding examples, and from which a destructive device may be readily assembled; any bludgeon, sand club, metal knuckles or throwing star; any knife commonly referred to as a switchblade knife having a blade that opens automatically by hand pressure applied to a button, spring, or other device in the handle; or any knife having a blade that opens or falls or is ejected into position by the force of gravity or by an outward, downward, or centrifugal thrust or movement; or any electronic device designed to discharge immobilizing levels of electricity, commonly known as a stun gun. Possession of a firearm or other weapon shall result in expulsion from school for a period of one calendar year, except the superintendent may recommend this expulsion requirement be modified on a case-by-case basis. Possession of a facsimile of a weapon may result in suspension or expulsion. Expulsion hearings for possession of a weapon shall be conducted by the superintendent or the superintendent's designee. Students violating this policy shall be reported as having a felony or misdemeanor and also referred to the appropriate law enforcement agency(s) and if a juvenile to DCF or the Commissioner Juvenile Justice.
